Experience

- **Frontend Software Developer**

Google for Startups

Jun 2022 – Present

- Building reusable components using modern front-end libraries (React and Vue.js) for future use.
- Using React ideas to develop and create a modern highly responsive web-based user interface
- Examining interface designs and application needs and tracking user interactions on the web.
- Optimizing components for maximum performance across a vast array of web-capable devices and browsers
- Collaborating with back-end developers and web designers to improve usability
- Fixing any website issues or bugs that arise

- **Full Stack JavaScript Developer Intern**

Gaza Sky Geeks

Jan 2022 – Jun 2022

- Collaborated with a team of developers to build modern and responsive web applications using best practices.
- Built semantically structured full stack web applications.
- Applied agile methodologies like SCRUM for project management.
- Maintained a robust system through tests using JavaScript testing frameworks like Jest.

- **General Dentist**

Onest Smile Clinic

Sep 2019 - Jan 2022

- Observed oral health status to recognize and solve community health issues.
- Performed dental procedures, such as extractions, root canals and cavity restorations.
- Wrote prescriptions for antibiotics and other medications.
